### Listening to supporters of Study Support for children

In Tsurumi Lounge, Study Support Services are available. They are “Aozora” opening on every 1<sup>st</sup> and 3<sup>rd</sup> Saturday morning for elementary school children and “Nanairo” opening on every Monday night for junior high school students. We listen to three supporters about their activity. What inspired you to become a supporter? :

「I found out that foreign students were stumped about how to prepare the entrance examination..」

「I noticed some children dislike studying..」

「I noticed they have no idea about specific phrases used in classes..」

Is there anything that you bear in mind? :

「I try to praise their strong points and inspire them to study..」

「I listen to children face-to-face..」

「I teach them along with their own pace and never give up..」

「I prepare many materials to satisfy their expectation..」

When do you find it rewarding? :

「When I get a favorite report of their good marks of the test..」

「Unlike before, children get to motivated to do their homework..」

「Children could change their awareness and become friendly and positive..」

「Once children understand what I teach, they don’ t miss my class..」 I feel so when I see them. You could meet up friendly supporters and big smiles of lounge staff at the Study Support Class. This Class is a “Ibasyo” , secure and cozy place for children related to foreign countries.

### Exchange Group Letter

In November 28<sup>th</sup> 2020, we had a city walk through the event, 「Visit Korea(N&S) in Tsurumi」 .We had 18Japanese and 1 foreign participants.

We took a good look at big clock on the wall of JR Tsurumi Line. It is the present from the people returning to DPRK in 1959. Expressing their thanks to Tsurumi people, “Take care, everyone!” is engraved on the plate.

Next, we visited Tsurumi Korean Elementary school-affiliated kindergarten. We listened to their enthusiasm to pass on the language and culture of Korean Peninsula to next generation.

Lastly, we watched the honoring monument of Tsunekichi Ookawa at Tozenji temple. He is the former chief of Tsurumi police station. He saved more than 300 Korean lives who were almost killed after the Great Kanto Earthquake. We got to know the relation between Tsurumi and Korea (N&S) and this is a good opportunity to think how important the bond between people.

### Chit Chat Session Let’ s talk in Japanese!

Big chance to speak Japanese!! You’ ll have a present !

Date & Time : March 3<sup>rd</sup> (Wed.)2021 13 : 30~15 : 00 Fee : Free
