## 【Column】 What is "Okinawa Town" in Tsurumi ward?

Many people from Okinawa moved to Tsurumi Ward to work at the factories located in the Keihin Industrial Area since before the war. Later, descendants of Okinawans who had emigrated to South America came and settled in Tsurumi to rely on their families and relatives, then formed the "Okinawan Town." For this reason, there are a lot of Okinawan cuisine restaurants there with connections to South America, such as Brazil and Peru.
